

High-Speed SPI Flash Demo Board Part Number: TP280210

The High-Speed SPI Flash Demo Board is a useful tool for developers working with high-speed SPI flash memory. This board comes with a known good slave memory device that is capable of communicating at 50 MHz

Features

- Provides known working SPI flash memory for testing and debugging purposes.
- Allows an easy connection between a Cheetah SPI Host Adapter and an Aardvark I2C/SPI Host Adapter or a Beagle I2C/SPI Protocol Analyzer.

Target

- **SPI Flash Memory**
M25P32 32 Mbit, Low Voltage, Serial Flash Memory With 50MHz SPI Bus Interface (Numonyx)
